

# Managed IT Services for Growing Businesses

## Reliable IT Support Without the Cost of an In-House IT Department

Technology should help your business grow—not slow it down.

For over **30 years**, **Your Way Computer Tech Team (YWCTT)** has helped businesses across **Abilene and surrounding areas** simplify technology, improve security, reduce downtime, and stay productive.

Today's business technology moves fast. Between cybersecurity threats, software updates, backups, cloud systems, remote work, and vendor management, maintaining a secure and reliable network can quickly become overwhelming. That's where we help.

Our **Managed IT Services** give your business access to an experienced team of IT professionals—without the expense of hiring and managing an in-house department.

### Why Businesses Choose YWCTT

#### ✓ Proactive IT Support

We identify and resolve problems before they disrupt your business.

#### ✓ 24/7 Monitoring & Support

Your systems are monitored around the clock to help reduce downtime and improve reliability.

#### ✓ Cybersecurity Protection

Advanced threat detection, patch management, antivirus, and security best practices help protect your business from cyber threats and ransomware.

#### ✓ Predictable Monthly Costs

Enjoy enterprise-level IT support for one simple monthly fee—without unexpected repair costs.

#### ✓ Fast, Friendly Help Desk Support

When your employees need assistance, our team is just a phone call, email, or remote session away.

#### ✓ Vendor Management

We work directly with internet, phone, software, and hardware providers so you don't have to.

#### ✓ Backup & Disaster Recovery

Protect your business with monitored backups and recovery solutions designed to keep you operational when the unexpected happens.

## **Why Outsource Your IT?**

Hiring an internal IT employee can be expensive and difficult to scale. Beyond salary, businesses often face costs related to benefits, training, equipment, downtime, vacation coverage, and recruiting.

Outsourcing your IT to YWCTT gives you access to an entire team of specialists for a predictable monthly investment—allowing you to focus on running your business while we handle the technology.
